Conditions of Sale

The property listed in this catalogue will be offered and sold by Parke-Bernet Galleries, Inc. ("Galleries") as agent for the "Consignor" on the following terms and conditions:

1. All property is sold "as is" and neither the Galleries nor its Consignor makes any warranties or representations of any kind or nature with respect to the property, and in no event shall they be responsible for the correctness of description, genuineness, authorship, attribution, provenience or condition of the property and no statement in the catalogue or made at the sale or elsewhere shall be deemed such a warranty or representation or an assumption of liability.

However, printed books which prove upon collation to be defective in text or illustration (provided such defects are not mentioned in the sale catalogue) may be returned by the purchaser, and the sale set aside, provided they are received back within fourteen days after the conclusion of the sale. The return of books will not be accepted on account of damage to binding, stains, foxing, marginal wormholes, lack of blank leaves or other conditions not affecting the completeness of the text, nor on account of lack of list of plates, inserted advertisements, cancels or any subsequently published volume, supplement, appendix or plates, nor (provided the book be perfect) on account of an error in the enumeration of the plates. Untitled books in lots, autograph letters, manuscripts and drawings are sold "as is" and are not subject to return for any reason. In case of dispute concerning collation or description, the Galleries' decision shall be final; and it reserves the right to submit the case, if appropriate, to a suitable arbitrator at its sole discretion. No imperfect book will be taken back, unless a note accompanies each book stating its imperfections, with the number of the lot and the date on which it was purchased.

2. The Galleries reserves the right to withdraw any property at any time before actual sale.

3. Unless otherwise announced by the auctioneer at the time of sale, all bids are to be for the lot as numbered in the catalogue.

4. The Galleries reserves the right to reject a bid from any bidder. The highest bidder acknowledged by the auctioneer shall be the purchaser. In the event of any dispute between bidders, the auctioneer shall have absolute discretion either to determine the successful bidder (in which event his determination shall be final) or to re-offer and resell the article in dispute. If any dispute arises after the sale, the Galleries' sale record shall be conclusive as to who was the purchaser, the amount of the highest bid, and in all other respects.

5. If the auctioneer, in his sole and final discretion, decides that any original bid is not commensurate with the value of the article offered, he may reject the same and withdraw the article from sale. Or, if the auctioneer, having acknowledged an original bid, decides that any advance thereafter is not of sufficient amount, he may reject the advance.

6. Title will pass to the highest bidder on the fall of the auctioneer's hammer, the risk and responsibility for the property thereafter to be the purchaser's. The name and address of the purchaser of each article or lot shall be given to the Galleries immediately on the conclusion of the sale thereof and payment of the whole purchase price, or such part thereof as the Galleries may require, shall be made immediately by the purchaser and the property removed from the Galleries' premises at the purchaser's risk and expense. If the foregoing Conditions or any other applicable conditions herein are not complied with, in addition to other remedies available to the Galleries and the Con-

signor by law, including without limitation the right to hold the purchaser liable for the bid price, the Galleries, at its option, may either (a) cancel the sale, retaining liquidated damages all payments made by the purchaser or (b) resell the same with notice to the purchaser and for the account and risk of the purchaser, either publicly or privately, and in such event the purchaser shall be liable for the payment of deficiency plus all cost, including warehousing, the expenses of both sales and Galleries' commission at its regular rates. All property not removed by the purchaser within three days from the date of sale may be sent by the Galleries to a warehouse for the account, risk and expense of the purchaser.

7. Unless the sale is advertised and announced as an unrestricted sale, or as a sale without reserve, the Consignor has reserved the right to bid personally or by agent; if the Consignor or his agent is the highest bidder, less than full commissions may be payable under certain defined circumstances, be payable.

8. Items or categories in this catalogue which are subject to the Federal Excise Tax on jewelry, clocks, silver, gold, furs, etc., are designated by an asterisk (*). Unless acquired by a registered dealer for resale, the purchaser will be required to pay in addition to the amount of his bid, the Federal Excise Tax equivalent to 10 per cent of the bid. Unless exempt by law from the payment thereof, the purchaser also will be required to pay the New York City Sales Tax of 4 per cent of the bid and all other applicable Federal, State and Local taxes.

9. The Galleries, without charge for its services, at its discretion and without responsibility for errors, may undertake to make bids on behalf of responsible persons approved by it, including the Consignor, subject to the Conditions of Sale and to such other terms and conditions as it may prescribe.

Texts in Italian, some headings and colophons in Latin. Leaves 73r - 129v, *Lucidarium artis transmutationis metallorum* in three parts, *Sanativa* (on the preparation of medicines), *Mechanica* or *Manufactoria* (on alchemical apparatus), and *Transmutatoria*; the second and third parts are paraphrased, and later owners have added marginalia concerning the lacunae. Leaf 130 r-v, *Compositio aquae secretae*, purportedly giving a formula

printed only by Raymond Lull. Leaves 131r - 150r, *Summa minor*, a letter of 1472 to Andrea Ognibene. Leaves 150r - 151r, *Capitolo*, giving 2 alphabetical codes of alchemical terms. The scribe does not identify himself, but notes at the end of the *Lucidarium* that this section was completed at Palermo 24 Nov. 1557. A colophon above this entry indicates that he drew upon a copy made at Venice in 1516. A SIXTEENTH CENTURY CALENDAR

142. EPHEMERIDES ad meridianū Vienen. Egidij Camilli Olumunceñ. Mathe. studiosz. [Calendar for 1510?] Two leaves, about $16\frac{1}{2} \times 11\frac{3}{4}$ inches, type set to be read from one leaf to the next in vertical columns. Historiated border at top, decorative borders on sides; figure of a bloodletting manikin at bottom. Upper left corner of upper leaf and upper right corner of lower leaf torn away; a number of other defects affecting text and borders. Mounted separately and tipped in oblong folio folder, half cloth.

Nuremberg: Jodocus Gutknecht, [1509?]

The year date is torn away at the top; the Dominical Letter F, in red, designates Sundays with the proper dates for 1510. However, one authority states that Gutknecht's printing at Nuremberg started only in 1514, which would indicate that the calendar was printed not before the next year with the correct Dominical Letter, 1521.

The entries are provided with extensive astrological apparatus; other symbols indicate propitious days for the preparation of medicines, taking of baths, weaning of children and planting. Notes at the bottom indicate that no eclipses will be seen in the year, warn of the evil conjunctions of planets, and advise on the signs propitious for bloodletting and pharmacy.
